Android on Your Computer

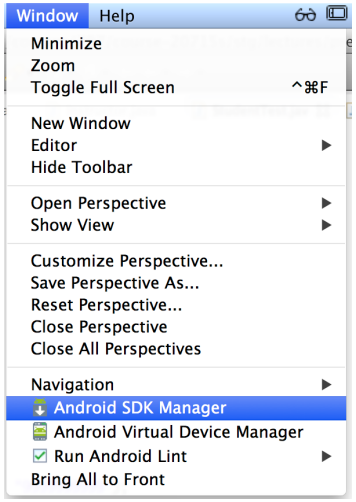
CSC207 Winter 2015

Computer Science
UNIVERSITY OF TORONTO

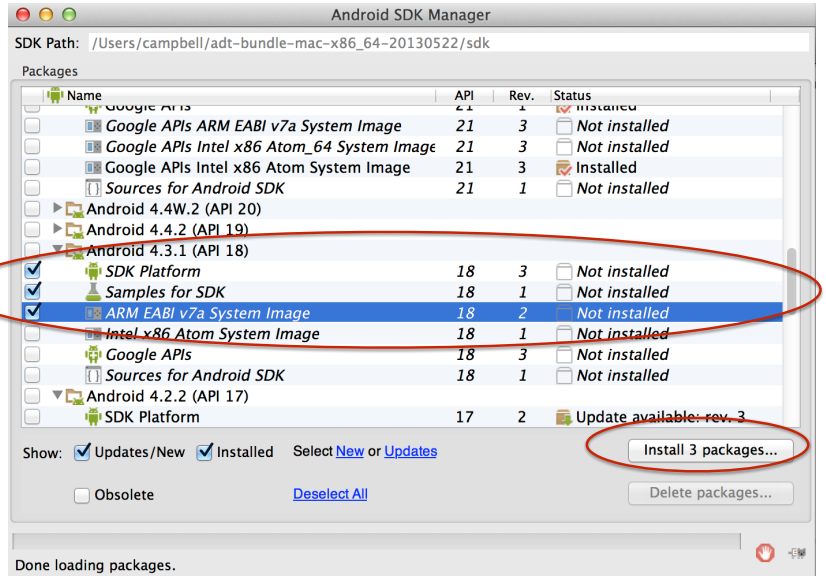
Outline

1) Check whether API 18 is installed. If not, install it.
2) How to create a new Android project.
3) How to add a new Activity to an existing Android project.

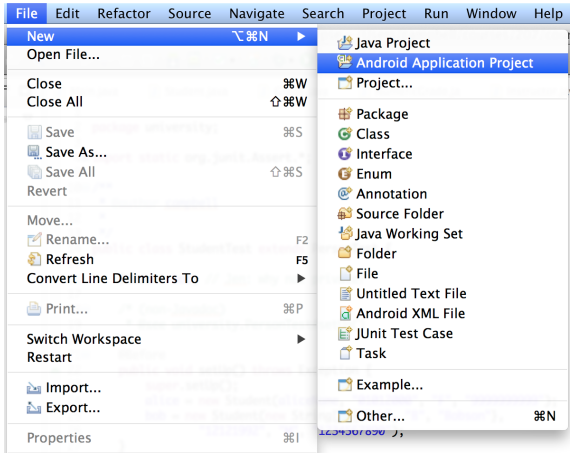
1. Check whether API 18 is installed

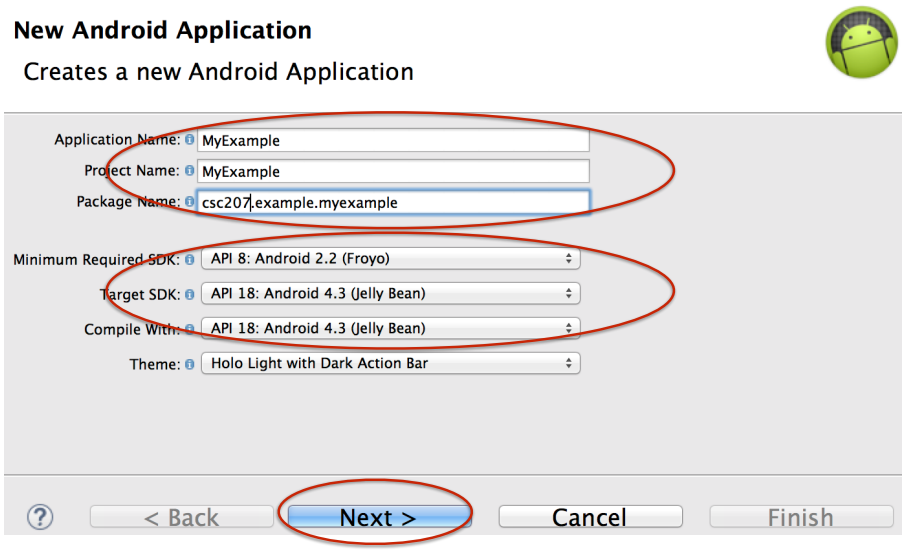


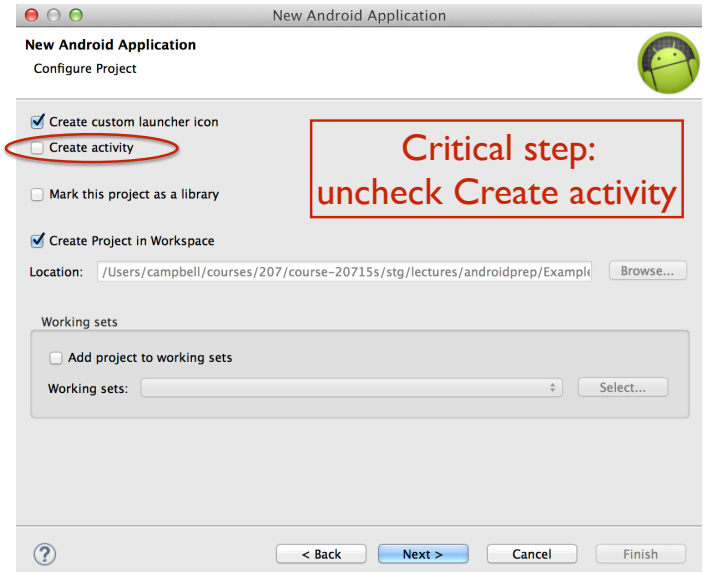
Install API 18 (if not already installed)

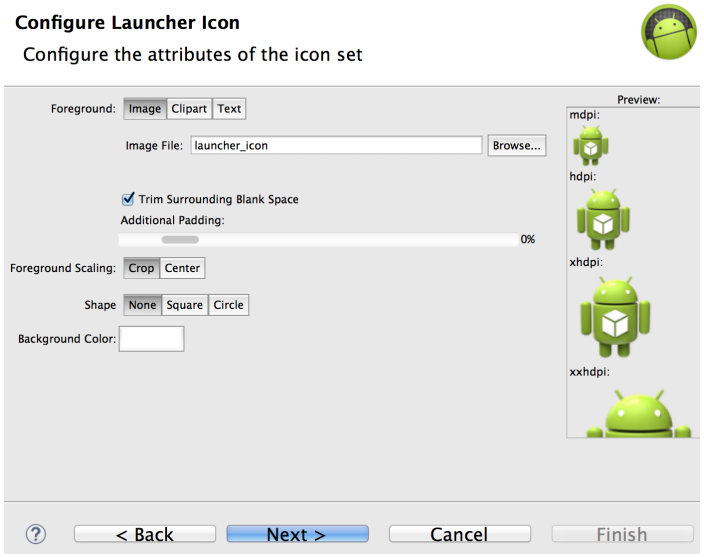


2. Create new Android Project



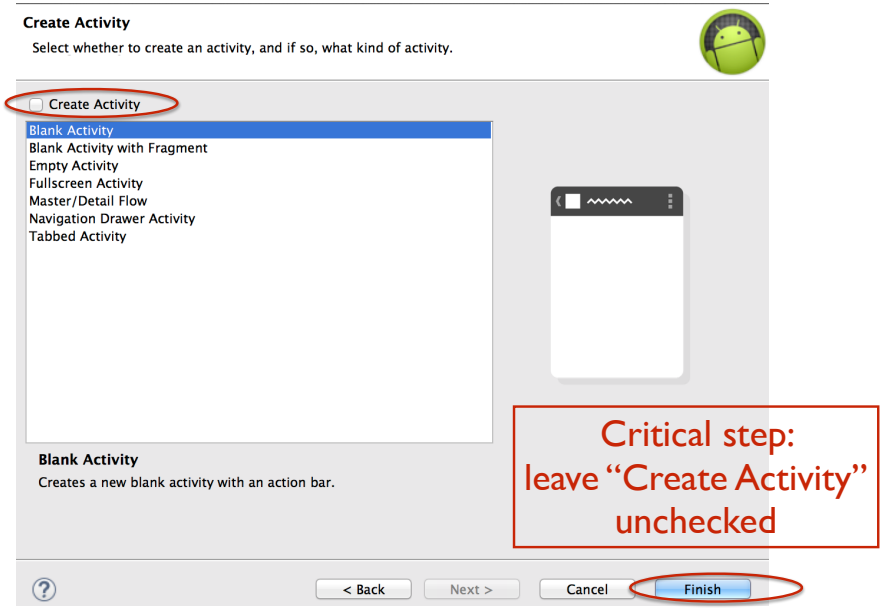






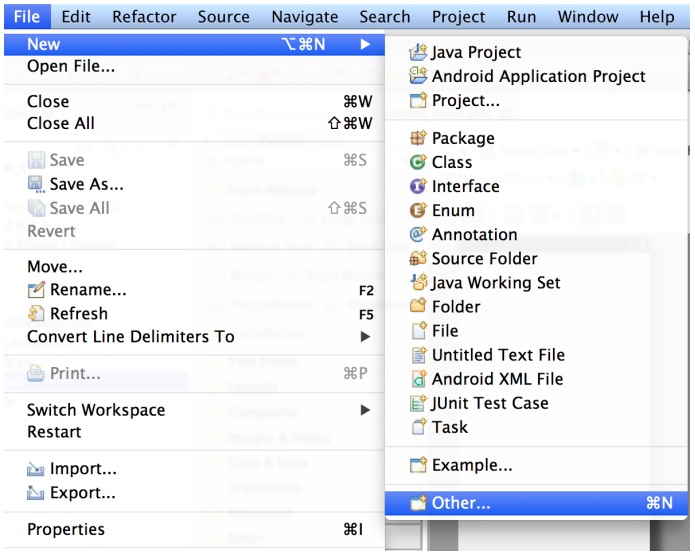
(Use default options)

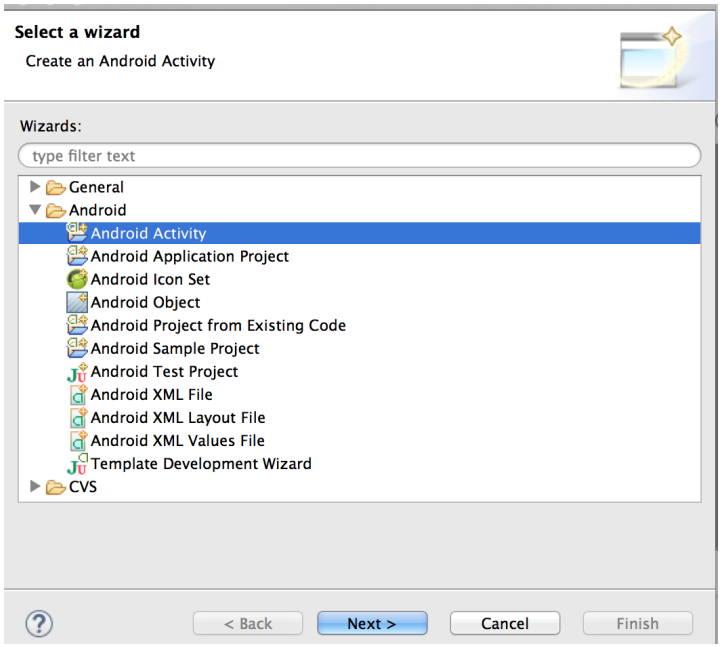
3. Add an Activity

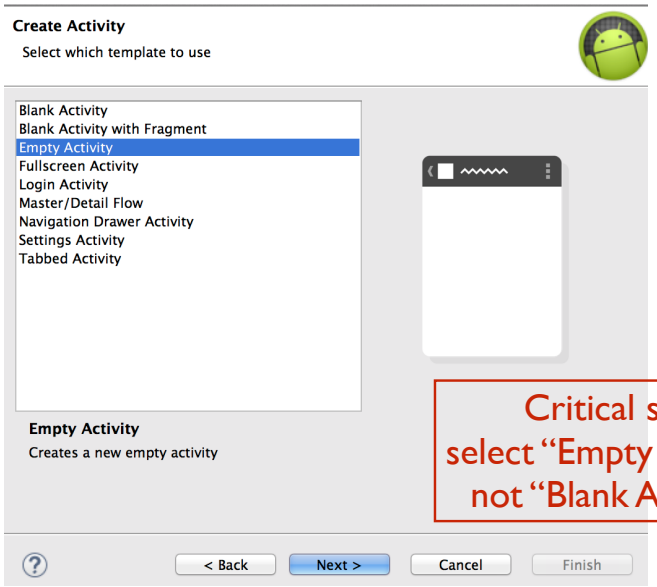


Critical step:
leave "Create Activity"
unchecked

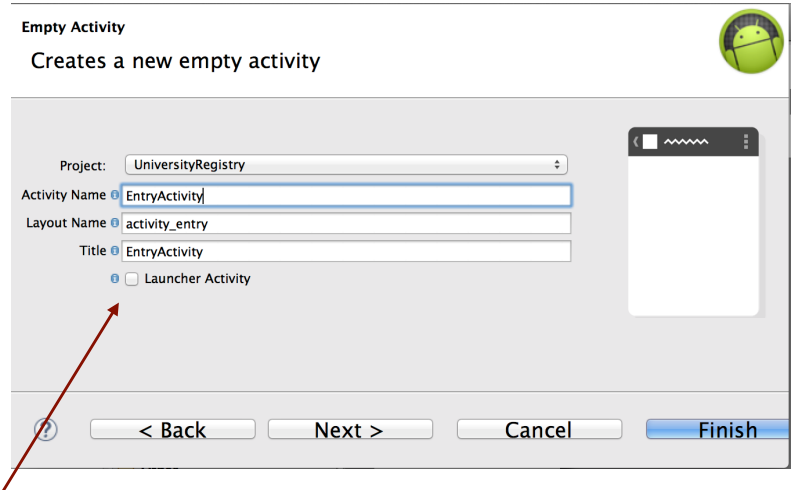
(Use default options)







Critical step:
select "Empty Activity"
not "Blank Activity"



If this is the first activity in the app to display, select Launcher Activity
