

Announcements

- Software installation troubles?
 - A common solution:
 - Install the 32-bit version of Python (even if you have a 64-bit computer):
 - Windows x86 MSI Installer (2.7.2) (sig)
 - Mac OS X 32-bit i386/PPC Installer (2.7.2) for Mac OS X 10.3 through 10.6 [2] (sig).

Announcements

- Exercise I
 - ~11% of students have submitted!
 - Trouble submitting on MarkUs? Try Firefox
 - If your program runs without errors, it's worth submitting! Even if you have only written one or two of the three functions.
 - For tips on how to start, see my response in "Exercise I, Where to begin?" on Piazza

Anonymous Feedback

- Received on Friday: "The timing of lectures vs labs created a degree of unfairness: some of what we learned today in the lecture is exactly what we are supposed to do in the lab. Those who have the lab today will be advantaged over those who had it yesterday."
