

Outline

- 1) How to create a new Android project.
- 2) How to add a new Activity to an existing Android project.

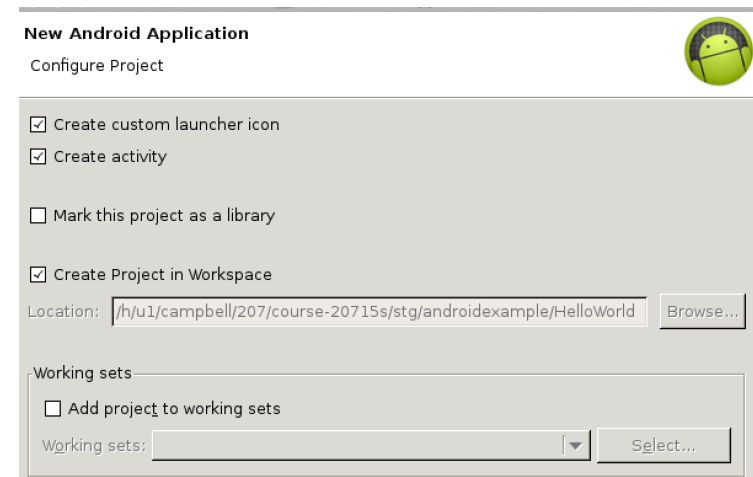

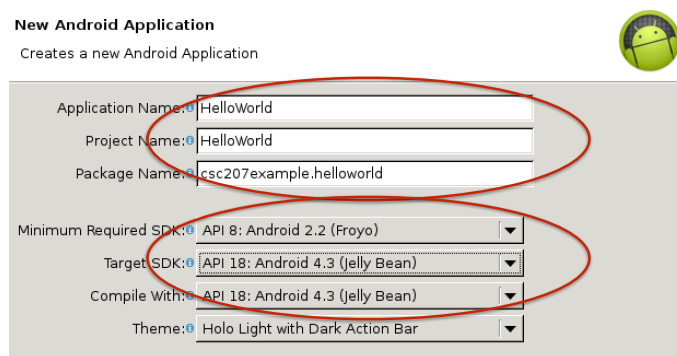

Android on CDF

CSC207 Winter 2015

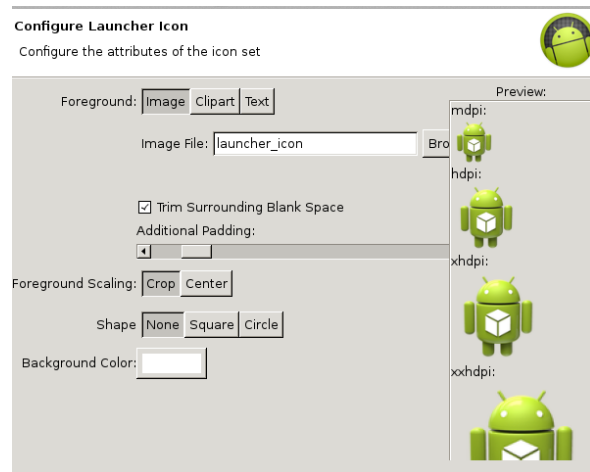

On CDF, always use: `eclipse-android`

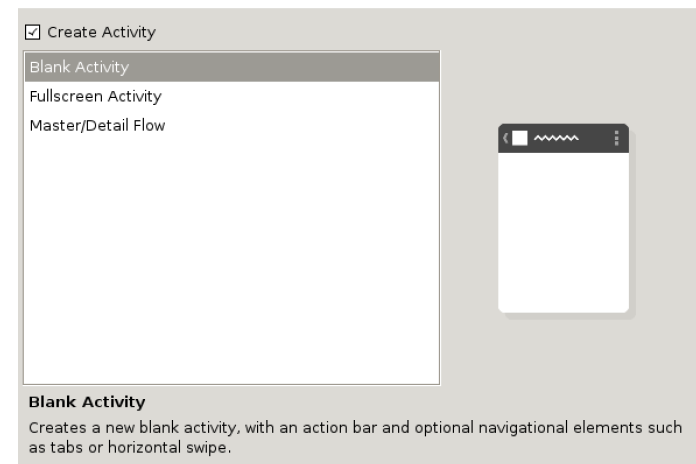

1. Create new Android Project (on CDF)

(Use default options)

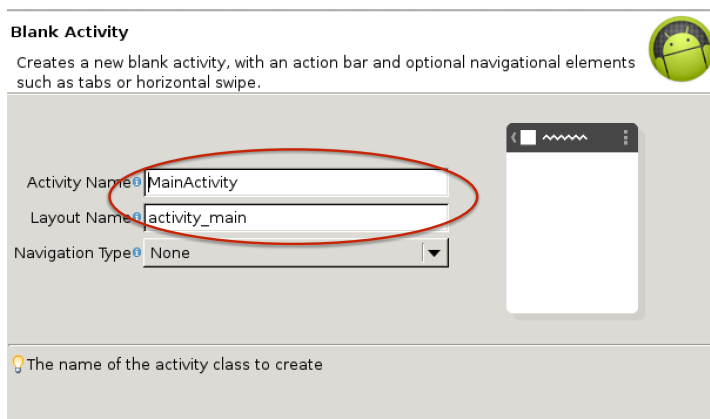

(Use default options)

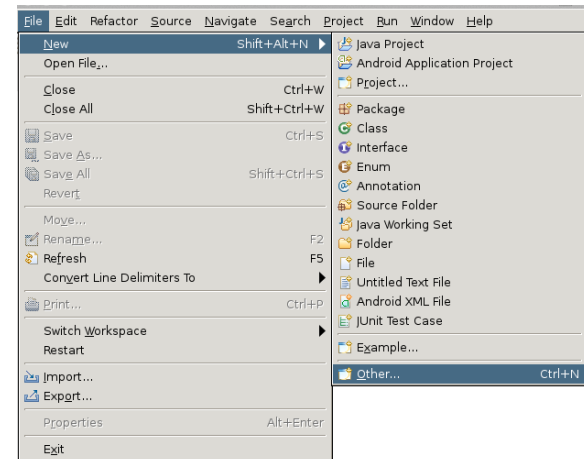

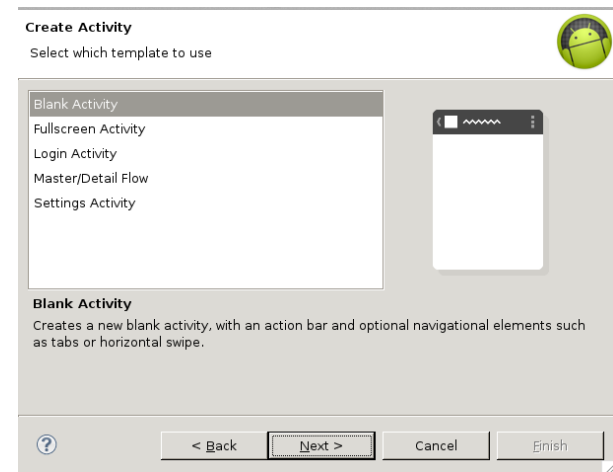

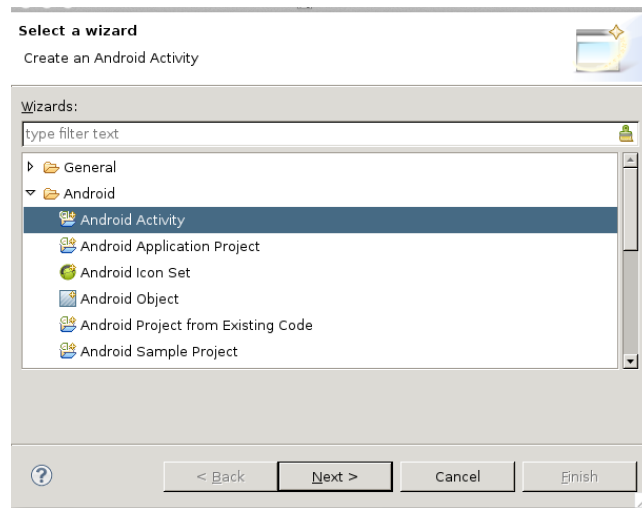

(Use default options)

2. Add an Activity (on CDF)

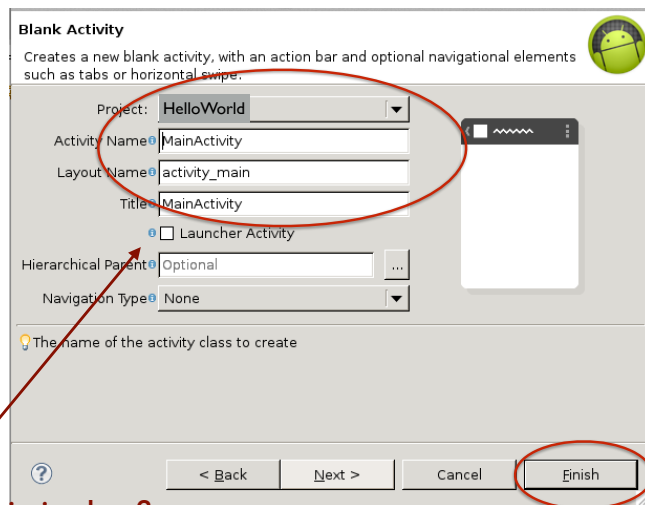

(Then click Finish.)

(Use default options)

If this is the first
activity in the app to display,
select Launcher Activity
