Annoucements

January 14 2015

Exercise 1 is posted

The handout has been committed to your SVN repository.

This exercise has you use SVN to get the handout and to commit your work (a small Java program).

The exercise will be pre-tested, but the pre-testing has not started yet. I'll post the pre-testing schedule once it has been finalized.

We'll cover enough Java in today's lecture to solve the exercise.
